## What is Minnesota history?

What is Minnesota history? How does history influence who we are and where we come from? Your goal is to answer those questions by **DRAWING** a picture of what you think Minnesota history is. The requirements you need to have in your drawing to be successful with this assignment are:

- You must include **drawings of your family and yourself** in the picture (you might want to ask your parents or family what their history is in Minnesota)
- You must use the entire sheet for your drawing (handing in a stick figure standing in the middle of the page is not a complete drawing)
- You have to have **three ideas** that were brainstormed in class in your drawing
- You may use a few words in your drawing but your picture should be mainly drawings (no sentences)
- You must color your drawing completely with crayons or colored pencils
- Be creative!

In class we brainstormed ideas of what Minnesota history is. Write some of these ideas down in the space provided below. **REMEMBER YOU NEED THREE OF THESE TO SHOW UP SOMEWHERE IN YOUR DRAWING!** Please circle the three brainstorming words/ideas that you are going to use in your drawing so I know to look for them!
